Education

Nov 2021 - June 2022

The University of Texas At Austin, Austin, TX – *Certification*
- Elected Project Team Lead for all major projects during the course
- Graduated with an overall score of 97.21%
- Received certificate of completion from the university.

Projects

Online Portfolio – *Creator* (*https://zdavis92.github.io/Upgraded-Portfolio/*)
- SPA built with React, and Tailwind
- Contains more information about myself as well as links to projects I have been a part of.

Connected – *Project Lead*
- Full stack web application created with React, MongoDB, Node, and Express. Intended to gather multiple web development job posts from several sites and compile them in one app for easier searching.
- Devised web scraping functions to gather the data, restructure it, and store in the database
- Implemented GraphQl to make request to the server and formulated functions to handle to incoming data to be displayed
- Oversaw debugging during merges and tests.

We Help Austin – *Project Lead*
- Full stack web application created with Handlebars, SQL database, Node and Express. Intended to help Austin community volunteers connect with people seeking help and vice versa.
- Developed entire backend code including RESTful API with Sequelize and SQL tables.
- Implemented frontend JavaScript for fetch request and data handling.
- Oversaw debugging during merges and tests.

Work Experience

Apl 2021 - Present

Buttermilk Cafe, New Braunfels, TX – *Section Leader*
- Delivered in-depth training to workers in food preparation to promote strong team performance.
- Obtained and enhanced quality benchmarks by developing and implementing standard practices.
- Liaised with the owner to discuss adverse trends and identify and resolve production issues.

Oct 2011 - Apl 2021

River City Smoked Meats, New Braunfels, TX – *Kitchen Manager*
- Created strategies to boost restaurant performance, streamline food prep and reduce waste.
- Coordinated with the events organizer to ensure quality and timely food deliveries.
- Developed kitchen staff through training, disciplinary action and performance reviews.
- Kept the facility compliant with health codes, sanitation requirements and license regulations.
